

Notes from meeting of 4/12/2017:

1 Discussed new signage rules implemented by Town:

Frank will contact Deb Lane to find out where the signs can go.

Should we select some new locations that have not been used in the past:

Visible to both traffic directions on Rte 77?

On road entrances to Town other than current Lions Field location?

How will we divide verbiage over multiple signs so that it is readable by passing vehicles?

Who should we contact to make these signs? (Rose uses a particular vendor for Art Show)

2) Rose contacted the owners of Antique cars she had mentioned:

One no longer owns them and the other said they would be there if no conflicts.)

3) Where to relocate Mad Science so that they have access to power and are near the stage:

Will reschedule them so that there is no conflict with the musical groups. (1:15 to 2:00)

Need to pick a theme for the show. They have several to offer.

Will extend their performance time to 45 minutes.

4) Steve is going to confirm if we have a group to run the Dog Show.

5) Reschedule Sea Grass from 2:00 to 3:00.

6) Need better signage for Dog Show and Fishing Hole. Rose getting signage upgrade for Petting Zoo.
